REPUBLICAN INSTITUT FOR VOCATIONAL EDUCATION

Bremen, 2014

СОДРУЖЕСТВО НЕЗАВИСИМЫХ ГОСУДАРСТВ
 СОВЕТ ГЛАВ ПРАВИТЕЛЬСТВ

РЕШЕНИЕ

от 18 октября 2011 года

город Санкт-Петербург

о придании учреждению образования «Республиканский институт профессионального образования» Республики Беларусь статуса базовой организации государств – участников Содружества Независимых Государств по профессиональной подготовке, переподготовке и повышению квалификации кадров в системе профессионально-технического и среднего специального образования

Совет глав правительств Содружества Независимых Государств решил:

1. Придать учреждению образования «Республиканский институт профессионального образования» Республики Беларусь статус базовой организации государств – участников Содружества Независимых Государств по профессиональной подготовке, переподготовке и повышению квалификации кадров в системе профессионально-технического и среднего специального образования.

2. Утвердить Положение о базовой организации государств – участников Содружества Независимых Государств по профессиональной подготовке, переподготовке и повышению квалификации кадров в системе профессионально-технического и среднего специального образования (прилагается).

3. Настоящее Решение вступает в силу с даты подписания.

RIPO provides training in the following specialties:

Industrial and civil construction

Sanitary equipment of buildings and facilities

Equipment and Welding Technology

Technical work and drawing

Tourism and hospitality

Industrial management

Equipment and technology of furniture production

On the basis of the obtained basic qualifications, students receive psychological and pedagogical training, allowing them to later work as teachers in vocational education corresponding profile.

Contradictions

- Industrial development and preservation of the environment
- Growth of "consumer" awareness and respect the attitude towards man and nature

Problems

- Development of the environmental movement in the country
- Maintaining the health of the nation
- Development of alternative energy
- Providing ecologically pure food
